Dear Principal Secrist:

Congratulations! It's my honor to inform you that Ohio's State Board of Education has granted your school one of its first annual All A Awards. The All A Award recognizes schools that have received A's on every aspect of school performance measured on Ohio's School Report Cards.

As one of the first winners of this award, you are part of an elite group of schools that are demonstrating high-quality teaching and leadership that result in high academic performance for every type of student.

Members of the State Board greatly appreciate your leadership and the conscientious work of your teaching and support staff to bring about this great success. Please convey our thanks to your staff and parents for believing that every child can succeed and committing to make sure that every child does.

Your school is a wonderful example for all Ohio schools.

Sincerely,
