

November 2, 2020

Dear Lexington Parents, Staff and School Community,

As our community continues to fight the spread of COVID-19, we believe one of our greatest responsibilities is to communicate transparently and often with you, our school community. It is our hope that accurate and up-to-date correspondence will help you make well-informed decisions for your family. Nothing is more important to Lexington Local Schools than the safety and health of our students, our employees and their families. When we work together, we can provide the best care for all involved.

We have learned that a staff member at Central Elementary has tested positive for COVID-19. Per the RPH and Lexington protocols for quarantine, the staff member has not been around students. No further contact tracing involving students will be done by Lexington Local Schools.

During this time of increased community spread, we recommend that all families monitor their children for symptoms daily. Symptoms of COVID-19 include fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. These symptoms may appear 2-14 days after an exposure. If you or a family member exhibits these symptoms, please contact your medical provider.

Richland Public Health encourages you and your family to follow The Centers for Disease Control and Prevention (CDC) recommendations for best practices to help prevent the spread of COVID-19:

- Wash your hands often with soap and water for at least 20 seconds.
- Use alcohol-based hand sanitizer with at least 60% alcohol if soap and water are not available.
- Avoid close contact with those who are sick.

-
- Cover your coughs and sneezes with a tissue or your sleeve.
 - Avoid touching your eyes, mouth and nose.
 - Disinfect frequently touched surfaces and objects.
 - Stay at home when you are sick.
 - Practice social distancing, leaving at least six feet between you and other people.
 - Wear a facial covering in public settings and at school.
 - Avoid large gatherings of people

Preventing the spread of this virus requires the vigilance of everyone at school, at home and out in the community. As we learn more about COVID-19 the guidance changes accordingly. For current information on COVID-19, please visit <https://www.cdc.gov/coronavirus/2019-ncov/index.html> or richlandhealth.org.

There is nothing more important to Lexington Local Schools than the safety and health of our students, our staff and their families. If you have any questions or additional concerns about this matter, you are welcome to contact me or Paula Smith, Director of District Nursing.

Sincerely,

Jeremy Secrist
Superintendent
